COVID-19 EMERGENCY

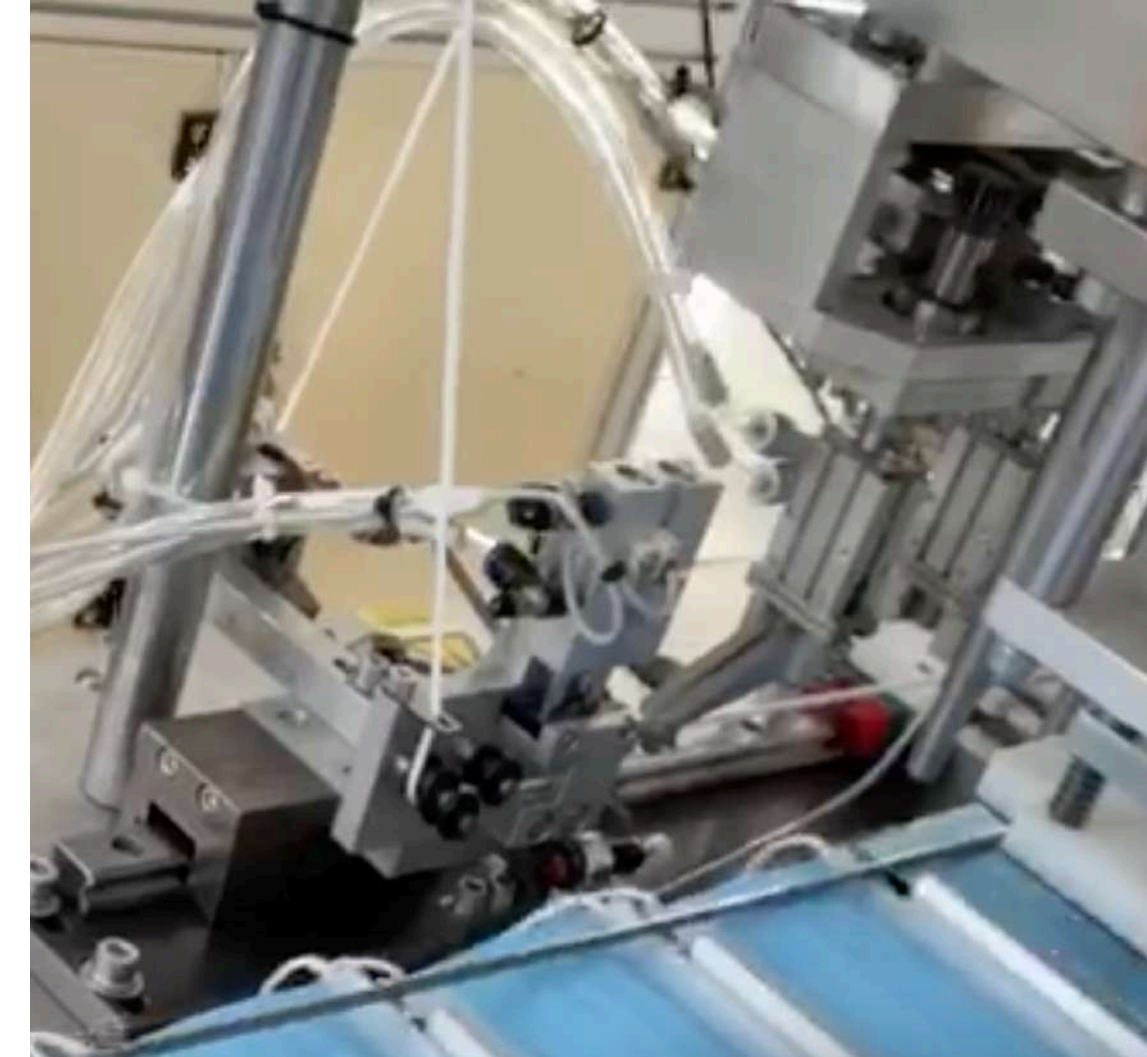

Alongside companies

Our Story

Maglificio Niccolai was born as an entrepreneurial reality capable of combine the experience gained in one of the historic knitwear factories in Prato district with the innovative and dynamic skills of a young company, able to intercept and satisfy the needs of a market in constant evolution.

Thanks to its resourcefulness, the company has undertaken the conversion of a part of its production lines in order to be able to produce and market certified surgical masks with a high quality standard. This project took the form of setting up a new production plant, located in Prato and equipped with modern machineries for automated and mass production, respecting the highest quality standards.

Secure your employees, customers and family members.

We are able to provide all companies with the necessary PPE - personal protective equipment - in order to guarantee the right to health and to be able to perform your own work safely.
